Millie and Michael
were reunited thanks
to Petco Love Lost

Double your RTO rates!

Here's how one community partnered with Petco Love Lost to do just that.

Pima County Animal Care Center (PACC) in Tucson, AZ started using Petco Love Lost as their official lost & found reporting tool, ensuring all shelter pets in their care were added to Petco Love Lost's database and referring community members who had lost or found pets to the free service. Petco Love Lost also provided assets to make it quick and easy for members of the community to post and search lost & found pets.

The incredible results

After just 6 short months
PACC sent hundreds more
pets home to their families.

- ✓ PACC nearly doubled their RTO rates from 16% to an estimated 29%.
- ✓ Staff at PACC spent 80% less time fielding calls about lost and found pets.
