

## Q & A

*For guests who inquire about our response to COVID-19*

### **Can you take my pet if I am quarantined?**

- At this time, it is recommended that you quarantine in place with your pet in your home if you are ill or under quarantine. If you are experiencing symptoms of COVID-19:
  - Avoid close contact with your pet
  - Wash your hands before touching or feeding the pet
  - Do not snuggle or kiss pets, or let them sleep in the bed
  - Do not cough or sneeze on your pet
  - Don't let the pet have contact with other animals or people

### **Can animals get COVID-19 and spread it to humans?**

- Both the [Centers for Disease Control and Prevention](#) as well as the [World Organization for Animal Health](#) have issued advisories saying there is no evidence that companion animals can spread the virus.

### **Should I handle pets differently if I am not sick or under quarantine?**

- It is always a good practice to wash your hands before and after interacting with animals.

### **What should I do with my pet if I contract COVID-19?**

- Prepare for the virus as you would any emergency, including:
  - Have plenty of pet food and supplies on hand
  - Make arrangements for pet care if you become ill and need assistance caring for your pet

### **Where can I get more information about COVID-19?**

- This is a rapidly evolving situation and we encourage you to regularly consult the [CDC's website](#).
